

Professional Summary

Senior UX/UI Designer with 6+ years of experience designing user-centered digital products for web and mobile platforms. Skilled in user research, wireframing, prototyping, usability testing, and information architecture to create intuitive user experiences. Experienced in collaborating with cross-functional teams including product managers, developers, and stakeholders in Agile environments. Proficient in modern design tools such as Figma and Adobe XD to deliver high-quality design solutions that improve usability and business outcomes.

Work Experiences

Senior UX/UI Designer | LTIMindtree

June 2022 - Present

- Led end-to-end UX design for enterprise SaaS products, improving overall task completion rate by approx. 15% - 20%.
- Designed 20+ wireframes and interactive prototypes, reducing usability issues by approx. 20% - 30% during testing cycles.
- Built and maintained a scalable design system, improving design consistency and reducing design effort by approx. 10% - 20% across teams.
- Led design discussions with stakeholders to define user flows and product requirements.
- Drove user centered design decisions by conducting user research and usability testing, identifying critical UX issues and improving overall product usability.
- Improved collaboration between design and engineering teams by creating clear design documentation and developer handoff guidelines.

UX/UI Designer | Infotek Softwares

June 2021 - June 2022

- Led UX improvements for the AB Grasim platform, identifying usability gaps through research and delivering actionable design recommendations.
- Designed user flows, wireframes, and prototypes that simplified navigation and improved overall user experience.
- Collaborated closely with product managers and developers to translate business requirements into intuitive user interfaces.
- Conducted usability testing sessions and iterated designs based on user feedback.

UX/UI Designer & FE Dev. | National Informatics Centre

January 2019 - October 2020 (On Contract)

- Improved NGDRS landing page experience by restructuring CTAs and content flow, contributing to approx. 20% - 30% improvement in user task clarity and reduced confusion during first-time visits.
- Improved visual hierarchy and accessibility for government service users, enhancing first-time user experience.
- Developed responsive front end interface using HTML, CSS, and Bootstrap.

Education

Dr. B.A.M.U, Aurangabad (MH)

Bachelor of Information Techonology
2012 - 2015

Certification

Diploma in UX-UI Design

EDIT Institute, Pune

Skills

Design

- User Research
- Usability Testing
- User Journey Mapping
- Wireframing (Low & High Fidelity)
- Prototyping
- Interaction Design
- Usability Testing
- Information Architecture
- User-Centered Design
- Accessibility (WCAG Compliance)
- Design Systems

Other

- HTML • CSS • Bootstarp
- Basic Video Editing
- Prompt Engineering

Collaboration

- Cross-Functional Collaboration
- Communicative
- Team Player
- Developer Handoff

Tools

- Figma • Adobe XD • Balsemiq
- Framer • ProtoPie • Filmora
- Lovable.ai • GenAI Tools
